

# 以太坊开发环境搭建

ubuntu

添加以太坊官方源

```
sudo apt-get install software-properties-common
```

```
sudo add-apt-repository -y ppa:ethereum/ethereum
```

git

```
sudo apt-get install git
```

安装以太坊客户端

```
sudo apt-get update
```

```
sudo apt-get install ethereum
```

源码编译安装

安装git

安装golang

```
git clone https://github.com/ethereum/go-ethereum.git
```

编译geth

```
cd GOPATH/github.com/ethereum/go-ethereum
```

```
make geth
```

MacOs

快速安装

```
brew tap ethereum/ethereum
```

```
brew install ethereum
```
